The Department of Health and Human Services (DHHS) and the Office for Human Research Protections (OHRP) approved our Federalwide Assurance (FWA) as submitted by the University of Tennessee Health Science Center in compliance with the requirements for the protection of human subjects (45 CFR 46).

Institutional policy, with respect to human subject research, requires that investigators conform to the Guidelines For Clinical Practice (GCP) as promulgated by the Food and Drug Administration. The UT GSM IRB is organized, composed, and functions according to the GCP.
