Laura Vaughn	Roane State Community College
Rebecca Marcum	Blount Memorial Hospital

The group met to view the DVD of the MLA satellite teleconference, *The Art and Practice of Electronic Journal, Book, and Database Licenses: Practical Tips for Health Care Organizations*, originally telecast on September 22, 2004. The DVD was obtained from the Region 2 NN/LM office, and attendees received three MLA CE credits.

No official business meeting was called to order. However, following the program, an informal discussion took place regarding proposed journal club ideas. It was noted that the bibliography from the telecast would make an excellent list for a journal club.
